Microsoft Cloud Solution Provider

Microsoft Dynamics 365
Certified
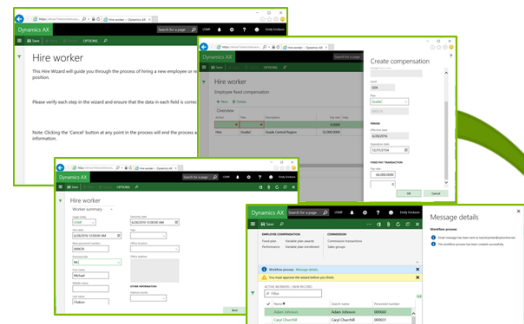

Elevate HR® for D365 integrates with Microsoft Dynamics 365 to complete its Human Capital Management features

Ensure that HR information required by your third-party payroll and benefit providers interfaces correctly and seamlessly. *Elevate HR® Payroll & Benefit Connector* operates globally to provide everything your payroll system or service needs to know about your employees—their status, their pay, garnishments or liens, banking information—everything. Benefit providers and brokers receive all demographic and enrollment data needed to administer plans. Say goodbye to duplicate data entry and subsequent costly data audits. Let your external payroll system and benefit providers do what they do best: calculate gross-to-net, disburse pay, print checks and advices, remit taxes, and/or manage your benefit plans.

Features

- Additional tables and fields enable Dynamics HCM to serve as your system of record for all employee-related payroll and benefits data input

- Employee tables for Federal, State, and Local tax jurisdictions

- Payroll-specific employee numbers to accommodate alternate employee number schemes

- Parameters to configure your requirements, from file numbering and location, to payroll codes and leading zero settings

- Deduction processing, with links to Elevate HR® Benefits Administration for benefit deductions

- Self-service direct deposit forms, plus additional payroll-required banking information

- Model & Format mapping designer ensures that Dynamics HCM data are mapped correctly to all global provider formats

- Interface file generation engine leverages Electronic Reporting and Data Projects to deliver efficient and accurate processing

- Fully configurable interface for flexibility limits the need for customized programming of interfaces, reduces costly updates and changes, and simplifies data entry
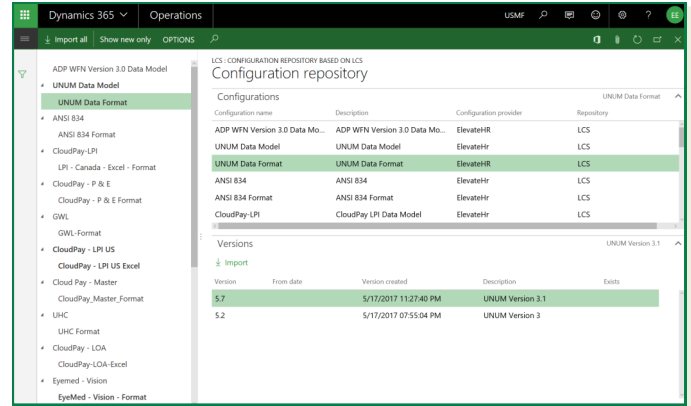

Access all global benefit and payroll integrations through a centralized Configuration Repository
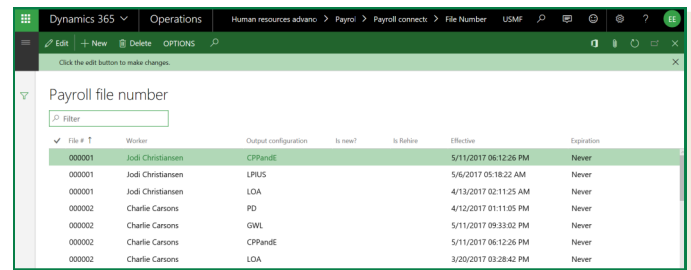

Alternate employee file numbers can be established for payroll service providers or third-party payroll systems, if required.
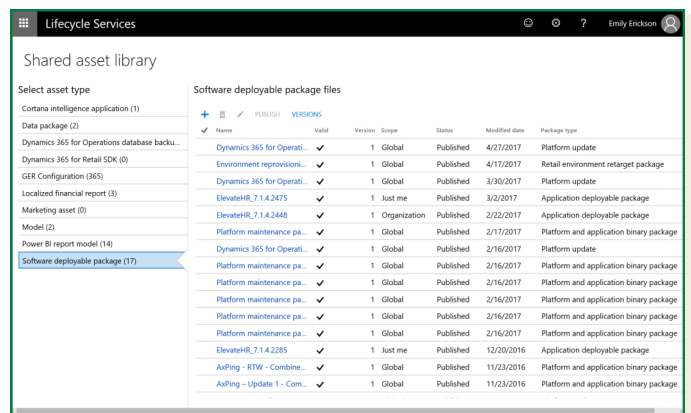

Download Integration configurations via Lifecycle Services (LCS) - the same way you receive and update Dynamics 365
